

# Instructions for using <http://tsd.dlink.com.tw>

- 1) On your browser go to [tsd.dlink.com.tw](http://tsd.dlink.com.tw)

- 2) Select the Model of your device. For example if your device is DCS-7513 with current FW v1.00

- 3) Click Go. You will reach the Downloads page, where you can find different downloadable material related to the selected product.

4) In our example the DCS-7513 has a new FW v1.01 available

The screenshot shows the D-Link technical support page for the DCS-7513. The page title is "DCS-7513" and it is under the "Downloads" section. A table lists the available files:

Type	Description	Size
Firmware	Firmware: DCS-7513 A1 FW v1.00 (for WW)	13.96 MB
Firmware	Firmware: DCS-7513 A1 FW v1.01 (for WW)	13.04 MB
Firmware	Software: Setup Wizard SE v1.05 (for WW)	3.25 MB
Manual/ QIG	Manual: DCS-7513 A1 FW v1.00 Manual v1.00 (for US)	11.4 MB

The second row, representing the new firmware, is circled in red. A red arrow points to it with the text "New Firmware".

5) Click on new Firmware, then click on Firmware file to start download

The screenshot shows the D-Link technical support page for the DCS-7513, displaying the details of the selected firmware file. The table shows the following information:

Type	Firmware
Description	Firmware: DCS-7513 A1 FW v1.01 (for WW)
Download	<a href="#">DCS-7513_A1_FW_V1.01.03.rar</a>
	<a href="#">DCS-7513 A1_Release Note_for_FW_V1.01.03.doc</a>
Last modified	2014/06/05

The file name "DCS-7513\_A1\_FW\_V1.01.03.rar" is circled in red. A red arrow points to it with the text "Click on file to start download".
