

Product Highlights

High-Speed Connections Anywhere

Supports 4G LTE standards so you can use your next generation mobile connection to connect all of your devices wirelessly – even when you're traveling

Easy to Take With You

Pocket-sized with no need for cables, and plugs into any powered USB port so can share your mobile Internet connection when you're on-the-go

Reliable Connectivity

Two internal LTE antennas offer superior mobile reception and provide a reliable connection in more places than ever before

DWR-910M

4G LTE USB Wingle

Features

Connectivity

- USB 2.0 plug connects to any PC or laptop computer
- SIM slot allows you to access the Internet using your mobile service
- Compatible with 802.11b/g/n wireless devices
Wireless Frequency Range: 2.4Ghz- 2.4835Ghz
EIRP: 18.7 dBm

Mobile Connections

- Data rates of up to 150 Mbps download and 50 Mbps upload¹
- LTE/DC-HSPA+/HSPA/WCDMA support for the latest in mobile network technology
- GSM/GPRS/EDGE support for legacy mobile plans and fallback in the absence of 4G LTE

Portability

- Small enough to slip right in your pocket
- Internal Wi-Fi and LTE antennas keep it compact

Easy to Set Up, Easy to Use

- Access your SIM card's phonebook and SMS messaging right from your web browser
- Built-in drivers and software mean that no CD-ROM drive is required
- LED indicators let you know the status of your connection instantly

The D-Link DWR-910M 4G LTE USB Wingle lets you share a fast mobile Internet connection with multiple PCs and mobile devices wherever you go. It offers 4G LTE compatibility for fast downlink and uplink data rates, so you get the fastest mobile connectivity available, even when you're on-the-go. You'll have access to smooth online video, lag-free online gaming, and high-speed surfing on any device, from anywhere.

Breakthrough Speeds with 4G LTE Technology

The DWR-910M 4G LTE USB Wingle gives you fast access to the Internet wherever you are and lets you share it on-the-go. Using powerful new 4G LTE technology, you can achieve download speeds of up to 150 Mbps and upload speeds of up to 50 Mbps¹. You'll get a blazing fast Internet connection with two internal LTE antennas that give you a more reliable connection with faster speeds. You can connect and share the Internet with speeds fast enough to allow demanding tasks that were once difficult when using a mobile connection, such as streaming HD video to multiple devices.

Mobile Internet for All of Your Devices

The 4G LTE USB Wingle lets you share your fast mobile connection over Wi-Fi from a device small enough to fit in your pocket. With the DWR-910M, you can get online with your notebook, smartphone, tablet, and any other wireless device by sharing a single 4G LTE connection. The DWR-910M will provide high-speed Wireless N Internet access for everybody – whether you are with colleagues on a business trip, or when you are travelling with friends and family.

Built-in Software for Instant Access Anywhere

The DWR-910M is truly plug-and-play with drivers built right into the router so you can connect without the need to install anything. Open a browser, connect the router, and you can set up your network right from a web interface. Notebooks and netbooks without a CD-ROM drive can connect and get up and running in no time. You can even plug the DWR-910M into any powered USB port and provide wireless connectivity to your mobile devices without a PC.

Designed for True Portability

The DWR-910M 4G LTE USB Wingle is small and slim enough to carry around in your purse or pocket so that you can take advantage of your fast 4G LTE connection wherever you are. Furthermore, the 4G LTE USB Wingle directly plugs in to your desktop or laptop computer's USB port, eliminating the need for cables so you can reduce clutter.

Technical Specifications

General

Device Interfaces	<ul style="list-style-type: none"> • USB 2.0 	<ul style="list-style-type: none"> • SIM slot
Radio Frequency Bands	<ul style="list-style-type: none"> • LTE-FDD B1/B3/B7/B8/B20 • LTE-TDD B38/B40/B41 • UMTS / HSDPA / HSUPA / HSPA+ B1 / B8 <ul style="list-style-type: none"> • (900 / 2100 MHz) • GSM B3/B8 	
Cellular Access	<ul style="list-style-type: none"> • LTE: 3GPP Rel-9 FDD-LTE Cat.4 <ul style="list-style-type: none"> • Downlink: 150 Mbps • Uplink: 50 Mbps 	<ul style="list-style-type: none"> • DC-HSPA+: <ul style="list-style-type: none"> • Downlink: 42 Mbps • Uplink: 11 Mbps
